Re: Customer Onboarding Manager

Dear Hiring Team,

Being the central point of coordination from contract to Customer Success is the job I know best. At Wix I ran up to 25 concurrent onboardings and launched 25+ clients a month at 110% of my implementation target, while leading onboarding teams of up to 30. At Accelo I took deals from the sales handoff and built sequenced implementation plans, deciding which systems to change and in what order, then handed them to the delivery team with clear dependencies.

I don't stop at technical go-live. At Birdeye I onboarded 15-20 partners and kept all but one by tracking adoption early and stepping in when usage slipped, which is the same readiness work your onboarding plans call for. I escalate risks before they become delays, hold internal teams and customers to what they committed, and document every milestone and decision so leadership has visibility and Customer Success inherits a complete picture.

Governance, risk, and compliance software would be a new domain, though I co-owned a licensed, regulated business where I built the compliance and reporting systems from scratch, so compliance-minded customers feel familiar. I'd welcome a conversation at 303-726-5037 or jrotnbrg@gmail.com.

Best,

Joshua Rotenberg
