Anatomy
Re: Customer Operations Specialist

Dear Hiring Team,

I'm applying for the Customer Operations Specialist role. For about eight years I've been on the patient side of insurance, working through prior authorizations and appeals for my own care, so I know how much depends on payments and paperwork moving correctly. A platform that takes that weight off practices is one I'd be glad to support.

The role itself is the work I'm built for. At Wix I carried about 25 onboardings at once while launching 25+ clients a month at 110% of implementation targets. At Birdeye I handled 50+ partner activities a day and kept all but one partner. I own requests until they're resolved, even when the fix sits with another team, and I build automated updates so customers never have to ask where things stand. I also use Claude and ChatGPT every day to move faster.

I'd welcome a conversation.

Sincerely,

Joshua Rotenberg
