SUMMARY

Go-to-market enablement builder with 15+ years across sales, onboarding, and customer success in B2B SaaS, so the playbooks I write come from having done the job. At Wix, built sales training for tenured account executives on a new product line that went from proof of concept to profitable, and helped hire, onboard, and train a team of 20. At Birdeye, built the automated product-training sequences that let 15-20 reseller partners sell and deploy without hand-holding, and ran a structured feedback loop to Product and Engineering. Ranked top three in sales at Accelo. Builds and evaluates AI agents and LLM workflows hands-on, so a technical AI product is something I can learn deeply and pitch myself.
