UX Research & Conversion Strategy

Arvada, CO • 303-726-5037 • jrotnbrg@gmail.com • linkedin.com/in/joshua-rotenberg

SUMMARY

User researcher and conversion strategist with 15+ years studying how real people actually use digital products. At Wix I ran moderated, task-based sessions with every e-commerce client launching a store, helped define the usability study approach as that vertical was built out, and turned what I observed into personas, layout changes, and site-structure recommendations that lifted conversion 25% and traffic 30%. I work hypothesis-first: state what I think the behavior data is showing, test it, and change the recommendation when the evidence says otherwise. I also build LLM workflows and evaluation loops directly, so I understand what usable, well-structured signal looks like when the audience for the research is a model rather than a design team.

PROFESSIONAL EXPERIENCE

Founder & Research / Growth Operations Lead | Solenzo LLC

Feb 2024 – Present

Arvada, CO (Remote)

- Diagnose why users fail to convert on client sites, combining behavior analytics, funnel data, and on-site review to isolate the specific friction point rather than guessing at it.
- Run hypothesis-driven test cycles: state what the data appears to show, design the test, measure, and revise the recommendation when results contradict the assumption.
- Analyze mixed qualitative and quantitative datasets and translate them into structured, prioritized recommendations that non-technical stakeholders can act on immediately.
- Design evaluation frameworks and self-improving loops that monitor AI agent output quality and continuously optimize against measured results.
- Translate loosely-formed stakeholder intent into precise specifications and agent instructions, acting as the bridge between what people say they want and what actually gets built.
- Produce written findings, reports, and educational content that make technical and behavioral insights legible to business audiences.

Account Executive / Client Strategist | Level Agency

Sep 2024 – Feb 2025

Remote

- Built performance reporting frameworks tracking conversion, CAC, LTV, and ROI, translating behavioral and campaign data into optimization recommendations delivered directly to clients.
- Produced landing pages and conversion-focused assets, iterating layout and messaging against measured user response.

Channel Partnerships & Customer Onboarding | Birdeye

Feb 2023 – Apr 2024

Remote

- Worked with agency partners to position and deploy customer-feedback and survey tooling for their end clients, building familiarity with voice-of-customer collection at scale.
- Analyzed partner utilization and product-adoption metrics to identify where users disengaged, then recommended interventions that reduced churn.
- Collaborated with Product and Engineering to translate structured user feedback into roadmap input across multidisciplinary teams.

Account Manager & Onboarding Team Lead | Wix.com

Aug 2020 – Aug 2022

Remote

- Ran moderated, task-based working sessions with every e-commerce client launching a store, observing them use the product in real time, asking follow-up questions, and documenting exactly where the experience broke down.
- Helped define the usability study approach used as the e-commerce department was built out, establishing how user friction was surfaced and evaluated for a brand-new vertical.
- Built customer personas from that launch work and used them to anticipate user needs and shape onboarding flows and site-structure recommendations.

- Used heatmaps and on-site behavior analytics (Hotjar) to inform layout and page-structure decisions across client sites.
- Synthesized session findings into growth consultations covering site architecture, information structure, and SEO, contributing to a 30% increase in traffic and 25% improvement in conversion across the e-commerce segment.
- Managed and developed a team of onboarding specialists, standardizing how research findings were captured and applied across the portfolio.

Account Executive | Accelo

Apr 2018 – Jul 2020

Denver, CO

- Ran in-person and remote discovery sessions with agencies and professional-services firms, mapping how teams actually worked before recommending system and workflow design.
- Built and applied buyer personas to anticipate user needs, objections, and motivations ahead of engagement.
- Guided onboarding, workflow design, and API integrations, troubleshooting where product design and real user behavior diverged.

Account Executive | Fivestars

2017 – 2018

Denver, CO

- Ran full-cycle sales for an SMB loyalty and marketing-automation platform, working in person with small business owners to understand how they and their customers used the product.

CORE COMPETENCIES

User Research: Moderated User Sessions, Task-Based Observation, Usability Study Design, Personas, Discovery Interviews, Voice of Customer, Remote & In-Person Studies

Analysis & Testing: Hypothesis-Driven Testing, A/B Testing, Heatmap & Behavior Analysis, Qualitative & Quantitative Synthesis, Funnel & Drop-Off Analysis, CRO

Design & Structure: Information Architecture, Site & Page Structure, Layout Optimization, Landing Page Design, Onboarding Flow Design

Communication: Findings Reports, Stakeholder Presentations, Technical Translation, Written Recommendations, Cross-Functional Collaboration

Tools & AI: Hotjar, GA4, Google Search Console, HubSpot, GoHighLevel, LLM Workflows, Evaluation Framework Design, Prompt Design

EDUCATION

B.A. Liberal Arts, Minor in Political Science — Colorado State University, Fort Collins, CO

CERTIFICATIONS

Google Digital Marketing & E-Commerce Professional Certificate — Google / Coursera (2024)
