SUMMARY

Client operations and systems builder who looks at how a small team actually works, finds where time leaks out, and fixes it with clean processes, a well-kept CRM, and automation. Has built 20+ automated workflows and Zapier automations since 2018, administered CRMs (HubSpot, Salesforce, GoHighLevel), and trained onboarding teams of up to 30 on documented processes so new people got the same result as experienced ones. Learns new software fast, works fully remote, and keeps records organized enough to hold up to review.
