SUMMARY

Implementation consultant and AI solutions architect with 15+ years across B2B SaaS, MarTech, and agency environments, leading software implementations from discovery and solution design through hands-on build, configuration, and adoption. Designs and deploys autonomous, agentic AI workflows that automate complex business logic and solve real business problems, pairing systems-design thinking with deep platform fluency in CRM, project-management, and collaborative work-management tools. A self-starter and trusted advisor to C-suite stakeholders who leads through ambiguity, manages projects on-time and on-budget, and is based in the Denver metro for the hybrid role.

PROFESSIONAL EXPERIENCE

Founder & AI Solutions / Implementation Lead | Solenzo LLC

Feb 2024 – Present

Denver Metro, CO

- Design and deploy autonomous, agentic AI workflows that automate complex business logic and solve real business problems — moving clients from manual processes to AI-first operations.
- Decompose manual workflows into agent architectures with custom logic, building self-improving evaluation loops that continuously optimize outputs (computational thinking and systems design applied end to end).
- Partner with B2B service clients to design, implement, and optimize CRM and marketing-automation systems as a fractional implementation and success manager.
- Architect and implement complex HubSpot CRM systems and integrations — relational data structures, segmentation, lifecycle stages, and data-hygiene protocols — connecting tools and data across each client's tech stack.
- Lead discovery and executive consultations, translating business requirements into technical configurations and delivering hands-on enablement that drives adoption at scale.
- Own project plans and deliverables end to end, building performance dashboards and reporting as a self-starter who leads through ambiguity.

Account Executive / Client Strategist | Level Agency

Sep 2024 – Feb 2025

Remote

- Acted as strategic lead on multi-stakeholder accounts, coordinating cross-functional execution and translating performance data into recommendations that improved outcomes.
- Built rigorous performance reporting across ROI, CAC, LTV, and conversion KPIs, delivering QBRs and executive-level recommendations.

Customer Onboarding & Channel Implementation | Birdeye

Feb 2023 – Apr 2024

Remote

- Led onboarding, implementation, and training for a high-volume customer and partner network, guiding complex setup and configuration of marketing-automation and reputation-management software.
- Functioned in a technical advisory capacity on customer health, retention, and automated workflows, helping customers realize platform value.
- Developed scalable training and product-enablement sequences that reduced onboarding friction and accelerated time-to-value.
- Represented the voice of the customer to Product and Engineering, channeling structured, high-priority feedback that informed the roadmap.

Account Executive / Sales Operations | Fetch & Funnel

Sep 2022 – Feb 2023

Remote

- Managed client accounts across execution, performance reporting, and cross-team communication for a performance-marketing agency.
- Built and refined internal processes that improved reporting accuracy and strengthened cross-team alignment, contributing to practice and process improvement.

Account Manager, Onboarding Launch Specialist & Team Lead | Wix.com

Aug 2020 – Aug 2022

Remote — Global SaaS

- Led onboarding and launch delivery for a high-value account portfolio within a global SaaS organization, ensuring on-time delivery that accelerated time-to-value.
- Directly managed and mentored a team of onboarding specialists, owning scope, budgets, and delivery across the portfolio.
- Drove measurable growth across the portfolio — a 30% increase in website traffic and 25% improvement in conversion in the e-commerce segment.

Account Executive | Accelo

Apr 2018 – Jul 2020

Remote — Global SaaS

- Sold, scoped, and guided implementation of complex CRM and project-management software for agencies and professional-services firms — owning onboarding, workflow design, and API integrations.
- Built C-suite relationships as a trusted advisor on operational system design, establishing credibility with both technical and executive stakeholders.
- Partnered with implementation teams to troubleshoot integration and workflow design and resolve complex technical challenges.
- Served as strategic advisor on CRM adoption, helping clients build scalable operational systems aligned to growth stage and team structure.
