AutoVitals

Re: Customer Support Specialist (Tier 1)

Dear Hiring Team,

Auto repair shops are the kind of client I've spent most of my career supporting: busy service businesses where the owner wants the software to work so they can get back to the bay. At Wix I onboarded 25+ small-business owners a month by phone, at Birdeye I supported partners serving local businesses and kept all but one of them, and today I support home-services trade businesses on their CRM, website, and automation tools.

My resume reads senior for a Tier 1 role, so here is the honest reason I'm applying: the part of every job I've liked most is helping an existing customer get unstuck, not selling a new one. I'm comfortable following a documented process, I write notes the next tier can act on without calling the client back, and I use AI assistants every day to research faster and keep documentation clear. When I find a gap in a runbook, I flag it.

I can start immediately. I'd welcome a conversation at 303-726-5037 or jrotnbrg@gmail.com.

Sincerely,

Joshua Rotenberg
