SUMMARY

Customer success and account management professional with 15+ years in B2B SaaS, owning portfolios from onboarding through retention and expansion. At Birdeye I used utilization signals to flag at-risk partners early and retained all but one of 15-20 (~94%). At Wix I carried up to ~25 concurrent accounts, launched 25+ per month at 110% of implementation targets, and drove a 25% conversion improvement across supported accounts. AI is part of how I work every day: I direct LLMs for research and drafting, build AI-enabled workflows with LLM APIs, and score AI output against rubrics before anything reaches a client.
