TeamSense

Re: Client Success Manager

Dear Hiring Team,

TeamSense solves a problem I know from the frontline side. Before my SaaS career I spent 15+ years as a cook across multiple restaurants, hourly shift work where one missed shift lands on everyone else on the line. That's the workforce your customers are trying to reach, and I've been one of them.

Since then I've spent 15+ years in B2B SaaS owning the post-sale journey. At Wix I launched 25+ clients a month at 110% of my implementation target. At Birdeye I watched partner usage closely, stepped in when an account started to slip, and retained all but one of 15 to 20 partners. I run discovery to find the outcome a customer actually cares about, then build the adoption plan and the business review around it.

To be direct: I haven't worked inside manufacturing or with union workforces, and I'd be learning plant operations from your customers. Frontline workers and the managers trying to keep shifts covered are not new to me. I'd welcome a conversation at 303-726-5037 or jrotnbrg@gmail.com.

Best,
