SUMMARY

Digital marketing strategist with 15+ years across agency, SaaS, and marketing operations, leading integrated campaigns spanning paid media, email, content, SEO, and analytics. Reads campaign performance as a business question rather than a platform one: what the data says, what is driving it, and what should change next. Led a team of onboarding specialists at Wix and developed sales training for tenured account executives, and has spent a decade advising executives and external partners where a recommendation has to be understood before it can be acted on. Denver metro based, currently building AI and automation systems that inform how search and discovery are shifting.

PROFESSIONAL EXPERIENCE

Founder & Strategic / Marketing Operations Lead | Solenzo LLC

Feb 2024 - Present

Arvada, CO (Remote)

- Analyze campaign and operational datasets across paid media, email, SEO, and web behavior, extracting the interpretation and recommended next steps rather than an activity summary.
- Optimized a client's Google Ads account - cut spam and low-quality leads, improved click-through quality - then diagnosed on-site conversion as the remaining bottleneck rather than declaring the campaign healthy on platform metrics.
- Report performance on a regular cadence to business owners and executive stakeholders, pairing results with strategic recommendations and clear tradeoffs.
- Build performance dashboards tracking lead generation, funnel progression, campaign ROI, and pipeline velocity; track acquisition and retention in GA4 and CRM analytics across multiple accounts.
- Conduct technical SEO audits, keyword gap analyses, and competitor research, implementing fixes directly in client CMS platforms.
- Architect AI-driven marketing systems and design the evaluation frameworks that monitor their output, translating non-technical stakeholders' ideas into precise, structured instructions.
