SUMMARY

Marketing operations builder who works as a team of one and builds the system from scratch. I design tracking at build time (GA4 conversion events, custom GTM triggers, enforced UTM conventions), lifecycle stages, scoring, and triggered journeys in HubSpot and GoHighLevel, and I build AI agents and automations that replace manual work: workflows that call the OpenAI and Claude APIs in n8n, Make, and Zapier to score prospects and generate personalized outreach. A decade on the B2B sales side means I build for pipeline, not just activity.
