Egnyte
Re: Customer Success Manager II

Dear Hiring Team,

I'm applying for the Customer Success Manager II role. Taking a customer from onboarding through renewal, and making sure they use what they bought, is the work I'm strongest at. At Birdeye I managed 15 to 20 reseller partners and retained all but one, roughly 94%, by tracking utilization and stepping in on adoption gaps before renewal came up. At Wix I onboarded 25+ clients a month while holding 120% of sales targets and 110% of implementation targets.

Two parts of your posting fit me well. First, the data: I work in Excel, Power BI, and SQL, and I build dashboards for clients that turn account performance into a short list of next actions. Second, building process inside a growing company. I run my own practice, which means I write the SOPs and documentation myself, and at Wix I helped take a new vertical from proof of concept to a profitable business line.

I also know part of your customer base. At Accelo I sold and scoped software for architecture and engineering firms, so I understand how project-based teams handle files, deadlines, and client deliverables. I haven't worked in content security, but I learn products fast enough to teach them. I'd welcome a conversation.

Sincerely,

Joshua Rotenberg
