SUMMARY

SaaS implementation consultant who delivers through platform configuration, not custom development. Runs discovery and workshops to pull out requirements, turns them into sequenced implementation plans and configured systems, and trains client teams until they run the platform themselves. Onboarded 25+ clients per month at Wix at 110% of implementation targets while leading onboarding teams of up to 30, and has configured CRM, marketing automation, and integration stacks across Salesforce, HubSpot, GoHighLevel, and Accelo. Works in HTML, CSS, SQL, and JSON when a configuration needs it.
