Leaf Home

Re: Sr Email Marketing Specialist

Dear Hiring Team,

The Sr Email Marketing Specialist role is exactly the work I already do for clients: owning email and lifecycle strategy end to end, from creative brief through build, QA, deployment, and performance analysis. Leaf Home's scale across multiple product verticals is a natural fit for that kind of channel ownership.

At Solenzo, I've architected and deployed a complete GoHighLevel marketing-automation system spanning 20+ workflows: lead capture and qualification, appointment booking with confirmation and reminders, no-show recovery, post-sale onboarding nurture, and long-term reactivation, plus segmented email campaigns and an automated audit workflow that enrolled 180+ contacts by scoring each prospect's digital footprint to trigger personalized messaging. I manage contact segmentation, lifecycle stages, and data-hygiene protocols daily to keep audience data accurate and deliverability healthy, and I use A/B testing and GA4 reporting to turn campaign results into concrete next steps. Several of my clients are home-services trade businesses, so I bring direct, hands-on familiarity with how residential-service companies market and convert customers, even though my platform experience is GoHighLevel and HubSpot rather than Braze, Iterable, or Customer.io specifically.

I'd welcome the chance to bring that hands-on automation and lifecycle experience to Leaf Home's email program. I'm available to talk whenever works for your team.

Sincerely,

Joshua Aaron Rotenberg
