SUMMARY

Revenue operations builder with 5+ years designing and shipping AI-driven automation for GTM teams, from lead enrichment and outreach to full agent architectures with custom evaluation logic. Fluent in translating loosely-defined business intent into working prompts, workflows, and code (SQL for Power BI/BigQuery/GA4, Python and JavaScript in automation-platform code steps), and in bridging non-technical stakeholders and technical execution. Built and shipped 20+ production automation workflows spanning capture, qualification, booking, and retention.

PROFESSIONAL EXPERIENCE

Founder & Strategic / Marketing Operations Lead | Solenzo LLC

Feb 2024 - Present | Arvada, CO (Remote)

- Architected and deployed a complete GoHighLevel marketing-automation system, 20+ production workflows spanning lead capture/tagging/routing, qualification, appointment booking, no-show recovery, onboarding, and retention.
- Broke down manual workflows into agent architectures with custom logic, writing Python and JavaScript in Zapier/Make/n8n code steps to extend automation beyond point-and-click configuration.
- Translated non-technical stakeholders' generalized ideas and feedback into precise, structured AI prompts and agent instructions, acting as the bridge between business intent and reliable LLM output.
- Designed self-improving evaluation loops and built rubric-based grading criteria to monitor AI agent output quality, performing the underlying data labeling personally to keep the feedback loop grounded.
- Built SQL-backed performance dashboards (Power BI, BigQuery/GA4) tracking pipeline velocity, funnel progression, and automation ROI, giving client stakeholders the data to decide which workflows to scale next.
- Own the primary strategic relationship for a portfolio of B2B clients, translating operational requirements directly into automated system design.

Account Executive / Client Strategist | Level Agency

Sep 2024 - Feb 2025 | Remote

- Built rigorous campaign performance reporting frameworks tracking ROI, CAC, LTV, and conversion KPIs, translating GTM data into optimization recommendations delivered through QBRs.
- Managed multi-stakeholder accounts across marketing and technology channels, bridging business priorities and technical execution.
- Ran Google keyword research and search-term analysis to shape campaign targeting and content direction with data rather than intuition.

Account Manager, Onboarding Launch Specialist & Team Lead | Wix.com

Aug 2020 - Aug 2022 | Remote

- Advised on A/B testing strategy for a Salesforce-based workflow-automation effort, defining test structure and success criteria for the team building it.
- Labeled and defined the CRM fields required for outbound sales and onboarding workflows, standardizing data capture across the team.
- Onboarded and launched 25+ clients per month, holding 120% of sales targets and 110% of implementation targets.

Account Executive | Accelo

Apr 2018 - Jul 2020 | Denver, CO

- Built Zapier automations integrating Accelo's CRM/PSA platform with client systems, hands-on automation-building history predating Solenzo by several years.
- Sold and scoped Accelo's own CRM/PSA (professional services automation) platform to agencies, advising on workflow design, contact management, and pipeline automation configuration.

- Guided client onboarding, workflow design, and API integrations, building relationships with C-suite executives as a trusted advisor on operational system design.
- Ranked top three in sales on a team that scaled from 8 to 15 reps, holding that rank across all but the final few months of a 27-month tenure while quota roughly doubled.
