OneImaging

Re: Marketing Operations Manager

Dear Hiring Team,

I've spent the last eight years managing an ongoing medical condition, and part of that has been fighting insurers for approval on imaging, including MRIs. I know how confusing and expensive that process is for the person going through it. A company that makes imaging simpler and fairly priced is one I'd be proud to market, and member communications that are clear and on time are a big part of how that promise reaches people.

Execution is where I'm strongest. I've built and deployed 20+ automated lifecycle workflows in GoHighLevel and HubSpot, including email and SMS journeys for onboarding, reminders, and reactivation, and I've worked hands-on in Marketo and Mailchimp. I build landing pages and forms, write the copy, run A/B tests, and report on what worked. I run projects in Asana, Jira, and ClickUp, and I coordinated 25+ client launches a month at Wix against a set launch process. I also build AI-assisted workflows and check their output before anything goes out, which fits how your team already works. I haven't used Braze or managed print and direct-mail vendors yet; the journey building, QA, and coordination carry over, and I'd get up to speed quickly.

I'd welcome a conversation about the member marketing team. I'm available at 303-726-5037 or jrotnbrg@gmail.com.

Sincerely,

Joshua Rotenberg
