SUMMARY

Web marketing and SEO professional with 4+ years of hands-on technical SEO (Screaming Frog audits, schema/structured data, keyword gap analysis) and conversion-rate optimization across SaaS clients, plus daily, practical fluency in how LLMs process and surface content from building AI agent systems, directly relevant to answer-engine and generative-engine discovery. Worth naming directly: my CMS experience is Wix, not Webflow, and I don't have cybersecurity-industry experience.

PROFESSIONAL EXPERIENCE

Founder & Strategic / Marketing Operations Lead | Solenzo LLC

Feb 2024 – Present

Arvada, CO (Remote)

- Conduct technical SEO audits, keyword gap analyses, and competitor research using Screaming Frog for site-wide SEO data pulls, implementing fixes directly inside client CMS platforms.
- Identify and implement schema/structured data as part of technical SEO audits, pulling full on-page schema implementation.
- Install and configure Google Tag Manager on every website built at Solenzo, and guided clients through GTM setup at Wix.
- Optimized a client's Google Ads account, cutting spam/low-quality leads and improving click-through quality, and diagnosed on-site CRO as the remaining conversion bottleneck.
- Translate non-technical stakeholders' generalized ideas and feedback into precise, structured AI prompts and agent instructions, the same translation work that determines whether an LLM surfaces content accurately.

Account Executive / Client Strategist | Level Agency
