SUMMARY

Marketing operations leader and CRM architect with 15+ years in marketing and revenue operations, including 5+ years building CRM and marketing-automation systems, primarily in GoHighLevel and with hands-on HubSpot client builds. As founder of Solenzo, I architect complete full-lifecycle automation engines that cover lead capture, qualification, booking, onboarding, nurture and reactivation, reviews, and cold outreach for agencies and service-based businesses. This work builds on more than a decade in account executive and client-facing roles, where owning client relationships, satisfaction, and retention drove revenue, and I bring those same client-first instincts to marketing operations by building the systems that scale the outcomes I once delivered one account at a time. Across those roles I have maintained high client retention and consistent quota over-attainment.
