SUMMARY

B2B SaaS onboarding and implementation lead focused on what happens after the launch: getting users to log in, use the product, and keep using it. Onboarded 25+ clients a month at Wix at 110% of implementation targets while leading onboarding teams of up to 30, and retained all but one of 15-20 partners at Birdeye by tracking utilization and stepping in when adoption slipped. Builds rollout plans with sales before close, runs the status meetings, reports adoption data to internal teams and client leadership, and documents the process so the next rollout runs faster.
