SUMMARY

Marketing operations practitioner with 15+ years in B2B SaaS, MarTech, and agency roles, including 5+ years building CRM and marketing automation systems. Builds the system rather than inheriting it: lifecycle stages, lead scoring and MQL definitions, routing, nurture workflows, and data hygiene in HubSpot and GoHighLevel, synced to the CRM through Zapier, Make, n8n, and APIs. Ties campaigns to pipeline with GA4, Google Tag Manager, and enforced UTM conventions, and reports results as recommendations rather than raw numbers. Works in Salesforce from Birdeye, Wix, and Fivestars, and uses Claude and ChatGPT daily to speed up operational work, including LLM API calls in production workflows.
