Re: Customer Success Manager

Dear Hiring Team,

Owning the relationship after the sale and proving value well before renewal is the work I'm best at. Helping government agencies serve the public faster and more simply is a mission I'd be glad to put that toward.

At Birdeye I managed 15 to 20 reseller partners and retained all but one, roughly 94%, by watching utilization and performance data for risk, stepping in with remediation before frustration became cancellation, and escalating the right issues to Product and Engineering. At Wix I onboarded 25+ clients a month at 110% of implementation targets while leading a team of onboarding specialists. At Accelo I built trusted relationships with C-suite clients and raised account risk early. Across those roles I've run business reviews, managed escalations, and represented the company at tradeshow and customer meetings, and I document everything so plans, commitments, and next steps are always current.

I haven't sold to or supported government agencies yet, and I'd expect to learn how municipal and county customers buy and renew quickly. I'd welcome a conversation about the accounts this role would own.

Sincerely,

Joshua Rotenberg
