SUMMARY

Marketing operations leader and CRM architect with 15+ years in marketing and revenue operations, including 5+ years building CRM and marketing-automation systems in GoHighLevel and HubSpot: properties, lists, segmentation, workflows, forms, nurture and lifecycle sequences, and the dashboards that show what is working. Turns campaign briefs from non-technical owners into reliable builds, QAs them before launch, and automates the manual work around them with Zapier, Make, n8n, and AI-assisted workflows. A decade in B2B SaaS account roles with long sales cycles means the builds are designed around how Sales actually uses the data.
