SUMMARY

GTM operations leader and CRM architect with 15+ years across MarTech, SaaS, and agency environments, including 5+ years building CRM and marketing-automation systems hands-on. I own the systems layer of go-to-market: CRM architecture, pipeline stages, workflows, reporting, integrations, and data hygiene — then layer AI-assisted outbound on top, turning prompts, templates, and guardrails into personalized outreach that runs at scale. Equal parts RevOps discipline and builder's mindset.

PROFESSIONAL EXPERIENCE

Founder & Strategic / Marketing Operations Lead | Solenzo LLC

Feb 2024 – Present

Arvada, CO (Remote)

- Architect and implement end-to-end CRM systems in GoHighLevel and HubSpot for B2B clients — contact segmentation, lifecycle stages, lead routing, and strict data-hygiene protocols that keep pipeline data clean, consistent, and actionable.
- Operationalize AI-assisted outbound: built segmented cold-email engines plus an automated prospect-audit workflow that enrolled 180+ contacts, scoring each business's digital footprint to trigger hyper-personalized outreach.
- Translate non-technical stakeholders' loosely-formed ideas into precise, structured AI prompts and agent instructions — the guardrails that keep automated outreach accurate, on-brand, and high quality at scale.
- Architected and deployed a complete marketing-automation system of 20+ workflows spanning lead capture, tagging and routing, lead qualification and scoring, appointment booking, no-show recovery, onboarding nurture, and reactivation.
- Build performance dashboards tracking lead generation, funnel progression, campaign ROI, and pipeline velocity, delivering actionable insights to executive leadership.
- Lead evaluation, implementation, and integration of automation and enrichment tooling into client CRMs and CMS platforms, building reusable infrastructure for 24/7 automated growth engines.
