SUMMARY

Digital marketing operator with 15+ years in B2B SaaS and MarTech, running SEO, paid media, and conversion optimization hands-on as founder of Solenzo. Builds the AI-agent systems and automation that are reshaping how buyers and search engines find and evaluate information, giving me a practical, ground-level view of the shift toward AI-driven search rather than a theoretical one. Comfortable moving fast without a large team, translating platform performance into clear recommendations for stakeholders and executives.
