SUMMARY

Customer-facing SaaS professional with 15+ years owning technical onboarding, troubleshooting, and support across CRM and marketing-automation platforms. Built and shipped AI-driven workflows that replaced manual, repetitive work, from a rubric-graded AI output pipeline to 20+ production automations, and personally writes and publishes newsletter content for a B2B audience. Comfortable owning escalations independently, documenting the fix so it doesn't recur, and building the reusable asset that saves the next person the same work.
