SUMMARY

Marketing strategist with 15+ years across agency and SaaS environments, blending hands-on technical SEO work — audits, keyword gap analysis, competitor research, on-site fixes — with hands-on experience building AI-driven marketing systems and LLM-based workflows. Track GA4 and CRM analytics to drive reporting and experimentation, and translate technical recommendations into clear guidance for both engineering and business stakeholders. Comfortable as the client-facing strategist on complex, multi-stakeholder accounts, and have mentored and developed team members throughout my career.
