Dragos
Re: Senior Customer Success Manager - West

Dear Hiring Team,

Protecting the systems behind water, power, and hospitals is a mission that's easy to get behind, and customer success is how a platform like Dragos proves its value year after year. That's the work I do best: owning a book of accounts after the sale and making each one healthier and bigger over time.

At Birdeye I managed 15-20 partners and kept all but one by watching utilization, spotting risk before it showed up as a cancellation, and getting in front of it with a plan. At Accelo I worked with C-suite and operations leads to map complex workflows onto a CRM and project-management platform, and at Wix I onboarded 25+ clients a month at 110% of my implementation target. I run business reviews with data and a next step, keep every account plan current in Salesforce, and coordinate across sales, support, and technical teams when something needs fixing.

I'll be direct about the gaps: cybersecurity and OT environments would be new to me, and my accounts have been small and mid-sized businesses rather than enterprise industrial customers. I learn complex products quickly and would welcome a conversation at 303-726-5037 or jrotnbrg@gmail.com.

Best,

Joshua Rotenberg
