SUMMARY

Marketing operations builder who sets the standard and then builds it. I architect HubSpot and GoHighLevel CRMs (properties, lifecycle stages, lead scoring, routing, data hygiene), build CRM integrations through webhooks, REST APIs, Zapier, Make, and n8n, and install conversion tracking myself through GA4, GTM, Meta Pixel, and Google Ads tags. I build dashboards in Power BI and SQL, including BigQuery pulls of GA4 data, and a decade on the B2B sales side means I know how long, multi-stakeholder deals actually move.
