SUMMARY

Web and search marketer who builds the site, gets it found by search and AI engines, and turns visits into demos. I built a 9-dimension framework for how AI search and LLMs read and cite a business and published 10 articles on it, I build my own site directly in HTML/CSS, and I run technical SEO audits and schema work for clients. At Wix I led onboarding teams of up to 30 and contributed to a 30% traffic lift and 25% conversion improvement across the e-commerce segment.
