SUMMARY

Customer engagement leader with 15+ years in B2B SaaS who owns deployment, adoption, and measurable outcomes. I deploy AI in production for clients today, calling LLM APIs inside automated workflows and grading AI output against rubrics before it reaches a customer. At Accelo I planned implementations and advised C-suite leaders on operational system design; at Wix I ran up to ~25 concurrent deployments at 110% of implementation targets while leading teams of up to 30; at Birdeye I used utilization data to catch adoption gaps early and retained ~94% of partners.
