SUMMARY

Implementation lead with 15+ years in SaaS, agency, and operations roles, turning complex customer programs into organized, predictable launches. At Wix, ran onboarding and launch for 25+ clients a month at 110% of implementation targets while leading a team of 20 specialists. At Accelo, built sequenced implementation plans that ranked which systems to change and in what order, then drove them with delivery teams and C-suite stakeholders. At Birdeye, rolled out a product across a 15-20 partner network and their end customers, retaining ~94%. Before tech, spent 15+ years cooking in restaurant kitchens, so restaurant operators, managers, and location-level teams are familiar ground. Builds hands-on with AI and automation tools daily.
