SUMMARY

Implementation and onboarding lead who runs customer projects from kickoff to handoff. At Wix I owned scope, budget, and delivery for a high-value client portfolio, carried up to ~25 concurrent onboardings, and held 110% of implementation targets while leading onboarding teams of up to 30. At Accelo I sold and scoped project-management software and built the sequenced implementation plans the delivery team executed. Today at Solenzo I configure client systems and databases, and I build AI tools (LLM API calls, n8n/Make/Zapier automations) into delivery to move projects faster.
