SUMMARY

Agentic operator and lifecycle marketing systems builder who writes the copy, builds the automation, and reads the results personally - no agency, no hand-off. Founder of Solenzo, where I architect AI-driven lifecycle systems that score engagement signals and trigger personalized message sequences across the full customer journey: capture, qualification, booking and confirmation, no-show recovery, onboarding nurture, and long-term reactivation. I build the monitoring that catches a broken message before a customer does, and I've been translating loosely-formed business intent into precise automation logic since before it was called agentic AI.

PROFESSIONAL EXPERIENCE

Founder & Strategic / Marketing Operations Lead | Solenzo LLC

Feb 2024 - Present

Arvada, CO (Remote)

- Architect and deploy autonomous, AI-driven marketing systems end to end - largely on GoHighLevel - automating lead enrichment, personalized outreach, and appointment booking without manual intervention.
- Architected a complete lifecycle-automation system - 20+ workflows spanning lead capture/tagging/routing, qualification, appointment booking with confirmation and reminders, no-show recovery, post-sale onboarding nurture, long-term nurture/reactivation, and automated review-generation sequences.
- Break down manual marketing workflows into agent architectures with custom logic that scores a business's digital footprint and generates hyper-personalized outreach - personalization at a grain a human couldn't produce by hand.
- Design self-improving monitoring loops and evaluation frameworks that catch broken or underperforming automation logic and continuously optimize conversion rates.
- Translate non-technical stakeholders' generalized ideas and feedback into precise, structured AI prompts and agent instructions, then rapidly prototype and deploy the resulting automation myself.
- Draft the direct-response copy, outreach sequences, and landing pages myself, then track results in GA4 and CRM analytics and use the data to keep iterating.
- Built an automated prospect 'audit' workflow that enrolled 180+ contacts, scoring each business's digital footprint to trigger individually personalized outreach.
